About HSA

HSA Contracting, established in 2021, as a part of a holding company. HSA is a contracting, fit out, and interior design company based in Abu Dhabi, UAE. We specialize in renovating and refurbishing both commercial and residential properties. Regardless of the property type, our company possesses the expertise and resources necessary to handle projects of varying scales and complexities. Our goal is to transform existing designs into functional and aesthetically appealing spaces that align with our clients' needs and preferences.

About HISA

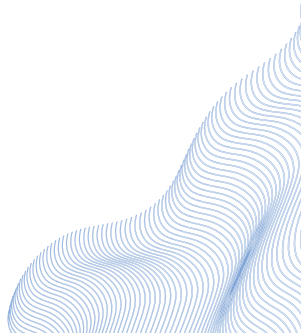

Our Vision

Our vision at HSA Contracting is to be the premier contracting company, renowned for exceeding customer expectations and delivering unparalleled customer satisfaction.

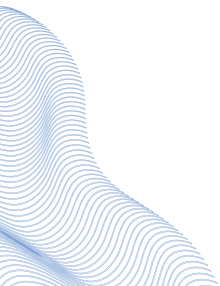

We strive to create exceptional quality that reflect our clients' unique visions and needs, while ensuring the highest quality craftsmanship and attention to detail.

Our commitment to customer satisfaction drives us to provide personalized services, transparent communication, and innovative solutions, establishing long-lasting relationships built on trust and exceeding our clients' expectations."

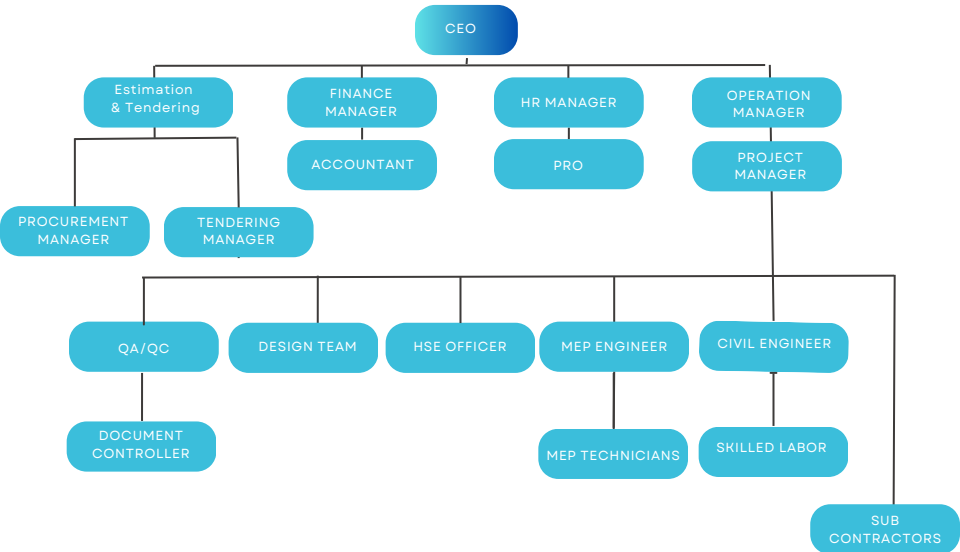

Our Mission

Our mission is to transform spaces into exceptional environments that inspire and empower individuals. As a premier fit-out and construction company, we are dedicated to delivering innovative, sustainable, and high-quality solutions that exceed our client's expectations. We strive to be the industry leader in providing comprehensive fit-out and construction services, offering end-to-end solutions tailored to our client's unique needs. Our commitment to excellence is unwavering, and we continuously push boundaries to deliver projects on time, within budget, and to the highest standards of craftsmanship.

Our Team

Our Departments

Finance

- The finance team manages financial transactions, ensuring stability, profitability, and compliance.
- Our primary objective is securing sufficient capital for effective project financing.
- We maintain strong relationships with clients, vendors, and reputable banks.
- Fostering a friendly and collaborative environment supports smooth financial operations.
- Our efforts align with overall business objectives.

Our Departments

Operation

- Operation Team drives seamless execution and successful project delivery.
- We prioritize excellence, efficiency, and continuous improvement.
- Our objective is to optimize project outcomes through effective planning and resource allocation.
- Close collaboration with stakeholders ensures clear communication and aligned objectives.
- We maintain high standards of quality, safety, and regulatory compliance.
- Strong quality control processes monitor project progress and adherence to best practices.
- Comprehensive safety procedures protect our workforce and the environment.

Our Departments

HR

- Human Resource Management (HRM) is the process of effectively managing company resources to achieve assigned goals.
- Our company follows the policy of placing the right person in the right position.
- Responsibilities are assigned to resources based on their education, training, skills, and experience.
- The HRM ensures that employees receive training to enhance their skills and keep up with technological advancements.
- The HR team handles recruiting, selection, training, and employee development tasks.
- All HR functions within our team comply with UAE rules and regulations.

Our Departments

Estimation & Tendering

- Calculate project costs and prepare bids. Secure new contracts and maintain competitiveness in the construction market.
- Activities Conducted by the Team:
- Cost estimating, cost planning, and value engineering.
- Cost-benefit analysis, life cycle costing, and risk assessment.
- Contract procurement, tender evaluation, and bill of quantities preparation.
- Pricing, estimation, and valuation.
- Procurement Team Duties:
- Source and purchase materials, equipment, and services for projects.
- Ensure timely and cost-effective procurement, impacting project success.
- Additional Responsibilities: Manage payment applications, including variations.

Our Services

H S A is a contracting and fit-out company that possesses a diverse skill set and a broad range of services. We often collaborate with specialized subcontractors and suppliers to ensure the highest quality of workmanship and materials.

Our Services

1 General Construction and Maintenance

H S A is a contractor that specializes in new, well-structured construction projects. Their skilled professionals and experienced engineers handle general building and maintenance works, including building construction, villa and mosque projects, and the installation of walls and boundary structures. Their commitment to quality and attention to detail ensures the delivery of lasting, functional, and aesthetically pleasing structures that exceed client expectations.

3 Fit-Out, Interior decoration

We offer customized solutions for our customers, creating, renovating, and refurbishing spaces to meet their specific needs. Our dedicated operation team ensures projects are completed with the highest quality, and our skilled technicians specialize in partition work, ceilings, tiles, flooring, wall covering, and decorative construction. We take pride in exceeding our clients' expectations, making us a reliable partner in construction and development.

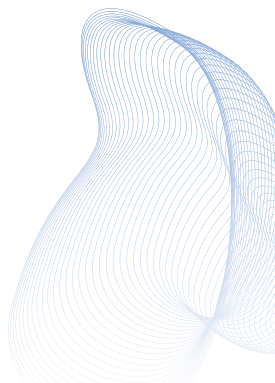

2 Road & Services Projects

Road & Services Projects encompass a variety of tasks, including road maintenance, repair, paving, and installation of essential components like street lights and road signs. These projects aim to improve transportation infrastructure and utility services, leading to enhanced connectivity, economic growth, and a better quality of life for communities. Collaboration among stakeholders is crucial for successful execution

4 MEP Services

Our MEP Services offer a wide range of solutions for mechanical, electrical, and plumbing needs. We provide comprehensive services including design, installation, maintenance, and repair. Our mechanical services cover HVAC systems, pumps, boilers, and more. We handle electrical system design, installation, and maintenance, including power distribution and lighting. Our plumbing services encompass piping, fixtures, drainage, and sewage systems. We also offer energy management and sustainability solutions to optimize energy consumption and reduce costs. Overall, our aim is to provide a convenient and expert solution for all MEP requirements.

Quality **PLAN & PROJECT EXECUTION**

Quality

PLAN & PROJECT EXECUTION

One key process in the business involves internal planning and orientation to meet project QHSE requirements:

1 **Business Development:**

The role of business development in UAE commercial operations is crucial for an organization's growth and success in the dynamic UAE market. It involves conducting market research, identifying opportunities through tenders and quotations, understanding local commercial and legal terms, and facilitating smooth project execution with external partners and decision-makers.

2 **Contract Review:**

The sales engineer is crucial in the contracts review process as they assess sales orders to ensure they meet client requirements and align with the company's capabilities. Their thorough review helps mitigate risks and protect both the company and the client's interests before finalizing the order.

Quality

PLAN & PROJECT EXECUTION

3 Project programming:

The project coordinator is crucial for project success, as they create task plans, assess required resources, and ensure smooth progress. They align team members, define objectives, and manage resources effectively.

The plan will include:

- Duration of the project
- Project designs and drawings
- Materials and Tools
- Manpower
- Machineries and equipment

Required Inspections and tests prior to project handover

4 Design:

Effective project design is essential for success and involves close collaboration between the operations manager and the CD manager. Their joint efforts ensure the project stays on track, meets its objectives, and produces innovative and marketable outcomes.

Quality

PLAN & PROJECT EXECUTION

5 Material Control:

- **Selection:**

Material Control's role in supplier selection includes creating a list of preferred suppliers, reviewing them based on quality and safety criteria, and ensuring compliance with procurement standards.

- **Purchasing:**

Material Control is responsible for identifying required materials, reviewing suppliers with managers, generating purchase orders, and ensuring timely delivery and quality for efficient operations.

- **Goods Receipts:**

Material Control is essential for the project as it oversees the receipt of goods and ensures they meet required standards. After approval, the project engineer coordinates the on-time delivery of high-quality materials to the project site as per the schedule.

Quality

PLAN & PROJECT EXECUTION

6 Execution:

Execution" in a project. The operations manager plans and assigns work tasks to the project engineer, who, in turn, instructs the project coordinator and oversees the work's progress. Once the work is finished, the operations manager inspects it before handing it over to the client.

7 Handover:

A well-executed handover ensures a smooth transfer of responsibilities, knowledge, and tasks between teams or individuals, maintaining consistent progress in the project.

8 Project's Document Control:

Filing all documents related to each department of the project separately with a continuous update for the documents (Soft copy and Hard Copy) in order to submit required documents when requested.
